

## NEW USB - RS232 Software for MDSnC

Compatible Windows 7, 8, 10 (32 and 64 bits) for MDSnC drivers

### Multi Digital DDS Synthesizers

AA Opto-Electronic is proposing a new software for its polychromatic modulation system based on MDSnC. This new version is compatible with all MDSnC (old and new versions).

This is a perfect plug and play tool for laboratory applications.

Download MDSnC PC Soft V3.01 now: [click here \(http://www.aaoptoelectronic.com/8.aspx\)](http://www.aaoptoelectronic.com/8.aspx)
